

## Wall-Mounted Eyewash Station

Certified: ANSI Z358.1-2014

CE EN 15154.1/2:2006

### TECHNICAL SPECIFICATIONS

oHeight:	400mm
oEyewash Bowl Diameter:	260mm
oPipe Wall Thickness:	2.5mm
oInlet Size & Type:	NPT 1 ¼" (Female Thread)
oDrain size:	NPT 1 ¼" (Female Thread)
oWork pressure:	0.2~0.6Mpa (2~6 bar)
oEye wash flow:	≥11.4L/min (3 US gallon)
oWorking Temperature:	5 - 35 °C
oEyewash Operation:	Flag handle switch valve
oMounting:	Wall mounted (Expansion bolt)

### MATERIALS OF CONSTRUCTION

oPiping & Valve:	Stainless Steel 304
oControl Valve - Eyewash:	½" Stainless Steel 304
oEyewash Bowl:	10" Stainless Steel 304
oEyewash Nozzle:	ABS + Stainless Steel 304
oFlag Handle Switch:	Stainless Steel 304

### MAINTENANCE

Emergency Station must be periodically checked to ensure water quality and water flow is normal. Check for leakages to avoid wastage of water.

### WARRANTY

Please visit [www.eyewash.ph/warranty](http://www.eyewash.ph/warranty)

### FEATURES

Emergency Eyewash Station Wall Mounted main characteristics includes:

- o Heavy duty, High quality
- o Easy to assemble and use
- o Delivered complete and ready to install
- o Can be installed indoor or outdoor
- o Made from 304 stainless steel materials & construction
- o Certified compliance to International Standards
- o 12-months warranty against rusts

### APPLICATIONS

Emergency Eyewash Station Wall Mounted provides excellent first response treatment against accidental contact with harmful, toxic or corrosive materials and substances.

Suggested industries:

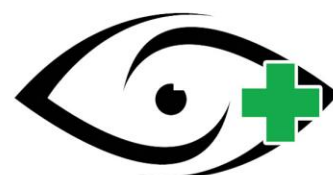

- o Medical and Laboratory Industry
- o Heavy and Construction Industry
- o Mining and Quarrying
- o Chemistry and Petrochemistry Industry
- o Maintenance, Welding and Metallurgy
- o Manufacturing Industry
- o Power Generation Industry

### SPECIFICATIONS

Model:	LS-SES400
Material:	Stainless Steel 304, ABS Spray Nozzle
Function:	Eyewash
Activation:	Eyewash (Hand)
Mounting:	Wall

### DIMENSIONS

Packing Size:	320mm x 300mm x 260mm
Weight:	3kg
Assembled:	400mm x 260mm x 230mm
